

Safety & Social Distancing Measures:

- Additional items to include for swim camp
- Swimmers will be separated during the swim portion of the camp to be 6ft away from each other
- Summer Swim Camp will be held in 2 lanes of the lap pool and isolated from other lessons
- Only prepackaged snacks & drinks are offered for snack time
- Dedicated coach for every day of the camp; a qualified assistant may be scheduled if there are over 8 students enrolled.
- Designated area for students to store their towels, personal items, and water bottle
- Facemasks are required to be worn by all families and Waterworks team members when approaching the facility, while in the facility, and when exiting.
- Touch-free temperature scans will be conducted on our team members and swim families upon arrival. Temperatures at or in excess of 100.3 degrees will be refused entry.
- Everyone will need to maintain at least 6 feet distance from each other with the exception of family members who share the same household.
- Students are encouraged to arrive and leave the swim facility wearing their swimsuit.
- Swim play areas will be closed until further notice.
- If you are sick or showing symptoms of COVID-19, please stay home and get well.
- All employees have been told not to come to work if they are sick.
- Any employee that comes to work feeling sick and/or shows COVID-19 symptoms will be sent home immediately.

Sanitation Efforts:

- We will be disinfecting all surfaces multiple times per day. These areas include (not limited to): workstations, countertops, doorknobs, and chairs.
- We will have a team member dedicated to cleaning all common surfaces during our operating hours.
- Hand sanitizer will be placed at various locations throughout our facilities.
- Professional deep cleaning will be performed on nightly basis.

- Bathrooms, staff break rooms and other common areas will be disinfected frequently.

Chlorine Clean Pools:

- NOTE: There is no evidence that the virus that causes COVID-19 can be spread to people through the water in pools. Visit: <https://www.cdc.gov/coronavirus/2019-ncov/php/water.html>
- We will continue to maintain well balanced, chlorinated pools per the CDC and local health department requirements.
- We have a sophisticated UV light system in place to kill microorganisms in pool water including cryptosporidium (parasite that comes from fecal matter).
